

MONK & SON AG SERVICES

No1 in the Field

NO JOB IS TOO BIG, OR TOO SMALL

Monk and Son Ag Services was first established in 2009 by Sam Monk at the age of 16.

The business is based in Cobden, Victoria and works across 4 states of Australia.

Sam started with a Case IH Maximum 155 Tractor and a New Holland BR7060 round Baler.

Now at the age of 28, Married to wife Amanda and raising two beautiful girls, Matilda and Ellie and son Charlie. Sam has grown the family business to a fleet of 50 Tractors, 6 Forage Harvesters, 7 loaders, 5 Prime Movers, 3 Silage Trucks, 70 implements, 2 Excavators and a Bobcat. The company has 45 full-time employees and staff numbers can reach 100 in peak Silage season.

Born and raised in South-West Victoria, Sam knows the business and he understands how vital it is to support local and country communities. Monk and Son are strongly involved in the local community as well as sponsoring local sporting clubs and schools, while supporting many local businesses across eastern Australia.

Sam has a strong passion for farming he owns 1100 acre dairy and fodder farm and leasing a 1140 acres of cropping land.

Monk and Son is looking forward to further growth across all areas of the business. Whilst also maintaining a consistent level of high-quality workmanship and professionalism that current day farmers require.

-------------------------------	-------------------------------

BULK SILAGE

Monk and Son Ag offer a complete range of first-class machines for bulk Silage. The latest Claas Jaguar Forage Harvesters with Shredlage processors offer the ultimate and most consistent chop length available on the market.

We offer the latest Smyth tri-axle haul out trailers, fully equipped with on-board scales and a portable weigh bridge for trucks without on board scales. This ensures you know the actual tonnes in the stack for accurate feed budgets as well as only paying for the exact amount of tonnes produced not just an estimate.

TRUCKS 3x tippers with trucks also available for long haul	TRAILERS 12x Smyth tri-axle 54 cube 2x Bergmann tandem axle 2x Mayer tandem axles
STACK COMPACTION 5x JCB 435 articulated loaders with buck rakes 1x 930 Fendt with push rake	RAKES 4x quad rotors 1x belt merger 4x twin rotors
FORAGE HARVESTERS 6x Claas Jaguars 4x Shredlage Processors	
MOWERS 3x triple mowers 2x triple mowers with conditioners and belt mergers	2x linkage mowers 1x Macdon Windrower with 4m steel roller conditioner and 30ft drapper with or without conditioner rollers

CORN

Monk and Son Ag offer a fully elite Maize service, strip tilling, planting, spreading and chopping services. Shredlage processors are used for chopping to ensure every corn kernel is cracked increasing the digestibility of the NDF to maximise milk or meat production. Scales are fitted on every trailer and a portable weighbridge is available for trucks ensuring every tonne harvested is accurately recorded.

The use of either a Boss Ag strip tiller or a Agri-con rotary strip tiller allows deep banding of fertilisers at two different depths. This applies the fertiliser in the root zone where it is directly available to the plant for maximum yields.

We also can precision apply Urea in crop with 4000L Amazone linkage spreader on row crop tyres with 3 metre centres using RTK GPS.

The business has 2 precision planters, 12-row Vaderstad precision planter and 8-row Vaderstad precision with section control. Ensuring planting is done to the highest standards possible using the most up to date technology and precision planting equipment.

2x Vaderstad precision planters, 12 row and 8 row	1x 4000L Amazone linkage spreader on row crop tyres	4x Claas Jaguar forage harvesters with shredlage processors	4x Kemper maize fronts
